

August 20, 2007

Mr. David Walsh
Executive Director
Delaware Building and Construction Trades Council
922 New Road – Wells Bldg.
Wilmington, DE 19805

Dear Dave:

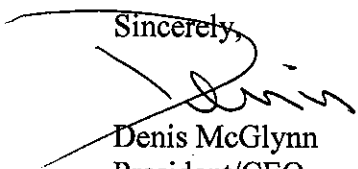

As you know when the Delaware Horse Racing Re-development Act was passed in 1994, it set the stage for Dover Downs to become the “NEW” Dover Downs. We recently completed ten years of continuing success and expansion following passage of this legislation and we’re still on the move.

Our goal from the beginning was to offer the best facilities in the market for our customers and, thanks to the many talents of your Trades Council members, we have been able to deliver on that vision.

With the second phase of our 500-room hotel nearing completion and phase six of our casino expansion under way, Dover Downs continues to build on its reputation as the premier venue in the market and customers continue to marvel at the great facilities your members have provided us.

I just wanted to take this opportunity to say thanks for your participation in our success and we look forward to working with you as we proceed with our future plans.

Sincerely,

Denis McGlynn
President/CEO
